INTEGRATED GPS NAVIGATION

YOUR PERSONAL NAVIGATION TOUR GUIDE

HP iPAQ 300 Series Travel Companion

Stay in contact and never get lost
Enjoy the journey as much as the destination. Whether you're on the road for business or pleasure, this advanced, high-definition 3D navigation system provides a wonderfully immersive experience to help you find your way.

A friend who tells you where to go
Confidently follow turn-by-turn directions to the places you need to go, with both spoken and on-screen guidance. Even street names are spoken to help you along the way. Pan and zoom to the level of detail you desire. Quickly zoom in from 3,000 metres to street level view. On the touch screen display, use your finger to simply slide the map in the direction you want to view.

While you travel, use your iPAQ 300 Series as a hands-free answering system for your Bluetooth-enabled phone.

… And be entertained along the way
Okay, you've customised your itinerary with HP's Web Trip Planning services and downloaded it to your iPAQ. You're in control of your contacts … so it's time to relax! Enjoy your digital media library, business multimedia content, or even a challenging video game on this premium high-definition entertainment system.

NEW

HP ENTERPRISE MOBILITY SUITE

Mobilise your workforce painlessly
The HP Enterprise Mobility Suite provides enterprises with comprehensive tools for effective device management, including over-the-air (OTA) mobile device initial set-up, configuration, diagnostics and security.

It allows IT the control and security typically available for desktops, servers and notebooks. Gain insight into deployed mobile device settings and configuration as well as resident software and applications. Remotely diagnose device issues, deliver software and feature updates, configure service settings, and lock or wipe devices to protect sensitive corporate data.

The Suite includes server and client software: HP Enterprise Mobility Manager and HP Enterprise Mobility Agent. Since it leverages industry standard protocols – Open Mobile Alliance (OMA) Device Management and Download specifications – it also supports leading handset manufacturers' native device management clients.

HP NAVIGATION AND TRIP PLANNING SERVICES

Travel Smart with HP Navigation and Trip Planning Services
It's a proven fact that with a good navigation system you can get where you need to go faster and more efficiently.

And think how stress free you'll be without having to try and read a map!

Combine those substantial benefits with up-to-date traffic information, points of interest, travel planning and more – and you'll enjoy your trip as much as your destination.

HP iPAQ Navigate. Your trip. Your way.
Go online, plan your trip and download everything to your iPAQ. Even share your itinerary and trip plans with colleagues and friends. You can stay up to date with the latest maps, search online for personal or business points of interest and easily incorporate them into your plans.

Drive smart. Stick to the speed limit.
Gain access to over 47,000 speed camera locations throughout Europe* and avoid not only possible fines but make your trip safer for yourself and others.

No delays. Use traffic information.
Put traffic jams and blocked roads out of your mind when using Traffic Message Channel (TMC) information**. Receive up-to-date information and then have optimal routes automatically calculated! The easy way to avoid delays.

And once you personalise your iPAQ by loading it with music, videos and travel plans, you'll be travelling in style.

For more information visit: **iPAQchoice.com/navigation**

* Currently available for Austria, Belgium, Denmark, Finland, France, Germany, Italy, Netherlands, Norway, Portugal, Spain, Sweden and the United Kingdom.
